

# MODEL 311

## TOP MOUNT DRIVE

### V-GUIDED SLIDER BED

This V-guided conveyor has a rubber guide vulcanized to the underside of the belt. The frame and pulleys are then grooved/notched to provide a track for the rubber vulcanized belt. This “guided” system keeps the belt centered for side loading, long run and short but wide applications.

## TOP MOUNT DRIVE

1700 Division Street, New London, WI 54961
